**Looking For A Floating
Pontoon For Your Project?**

**Quality Floating Pontoons
& An Exceptional Service**

FPS Pontoon Hire are specialists in floating platforms and installation of modular pontoon systems for commercial use throughout the UK.

We'll work alongside you from start to completion of your project to make working on water easy.

Floating Pontoons Are Perfect For...

- Maintenance platforms for plant machinery and excavators
- Pier and bridge maintenance
- Excavator platforms for de-silting
- Footpath diversions on canals
- Floating platforms for tree maintenance over canals, rivers and lakes
- Portable jetties
- Floating footpaths, walkways and bridges for pedestrian and vehicular access
- Rail and road bridge inspection platforms

Client Reviews

22

Just a quick note to say thank you for the flexibility that you showed last week in relation to the change to the relocation date for the pontoon(s) at Oxley Moor and for completing another high quality installation which CRT are again happy with.

Alastair Sayers
Project Delivery Manager, Mott MacDonald Bentley

22

Many thanks for that Steve, the pontoon worked like a charm. We will not hesitate to contact you should the need arise again.

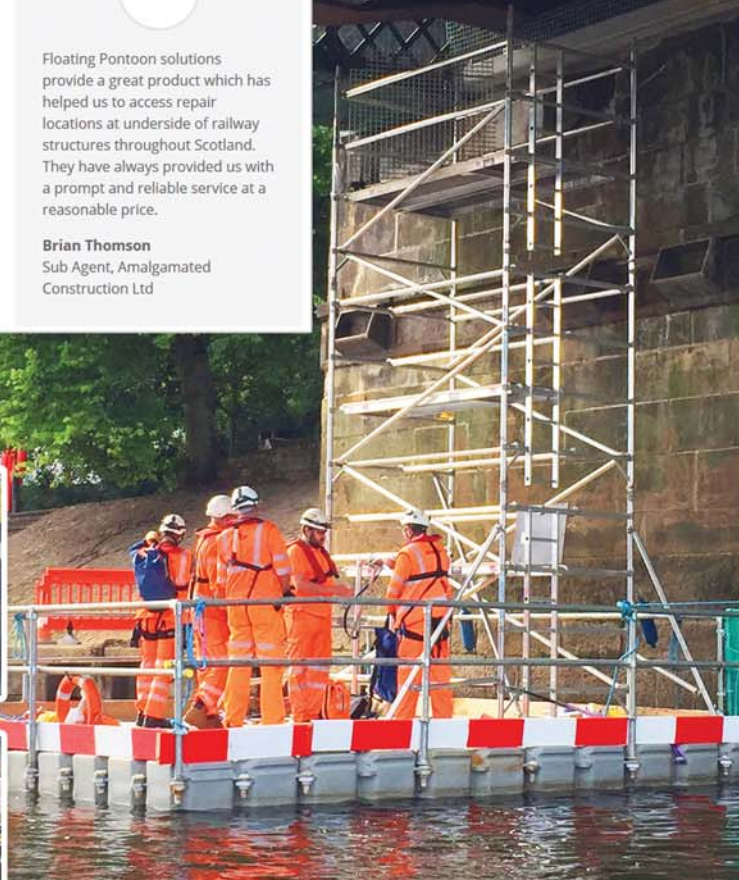

Wayne Russell
QS Supervisor, Tameside Metropolitan Borough Council

22

Floating Pontoon solutions provide a great product which has helped us to access repair locations at underside of railway structures throughout Scotland. They have always provided us with a prompt and reliable service at a reasonable price.

Brian Thomson
Sub Agent, Amalgamated Construction Ltd

Looking For The Floating Platform Of Choice?

Safe, Strong & Cost Effective Pontoons

Modular floating pontoons are the perfect platform for the construction, rail and waterways industries.

They're quick and easy to install for rapid construction using individual, interlocking modules which can be assembled on flat ground and easily launched into water.

What's Great About Modular Pontoons?

- They're incredibly strong and robust
- They transform into any size including around posts, columns and corners
- They're exceptionally buoyant and can withstand up to 350kg/m² or more if required

- 📄 Free estimates
- 📍 Delivery and collection service
- ✂️ Assembly and dismantling service
- 🛠️ Need some extras? Safety boats, outboard motors, tower scaffolds and life jackets are also available
